J. O. BROWN'S MONEYS

A Lengthy Report From the D. P. S. to Mayor McCallin.

the estimated appropriation necessary for the De-partment of Public Safety for the year 1800. Exbit "B" is an estimate of the amount of money necessary for the lighting of the various houses in the bureaus of police and fire. If this estimate is not included in the lighting account of the Department of Public Works as heretofore, the appropriation to the Department of Public Safety will have to be increased the amount specified in said exhibit. Exhibit "C" is a detailed statement of the appenses of this department from December 1, 1888, to December 1, 1889, as percharter ordinance.

names.

The estimates herein set out for the year 1890 have been made with a view to rigid economy, in all the bureaua, consistent with efficient service. There has been no increase asked for, such as might have been, when the wast growth of the city during the past year is considered. A comparison of the estimate berein asked for in exhibit "A" with that of last year will show a reduction of \$2.00.

Respectfully,

Chief Department Public Safety.

A COMPARISON MADE. In the statement which follows, the total

amount asked for each bureau and office is shown as compared with the expenses of 1889, as shown in the Chief's report in detail in the

In the estimate for the Bureau of Fire th In the estimate for the Bureau of Fire the purchase of another hook and ladder truck to cost \$3,500 is included; also the remodeling, repairing and improving of No. 1 engine house, to cost \$3,750, No. 6 to cost \$3,500, and No. 8 to cost \$3,500, but on this subject the report says:

"This item will be credited on account of sinking fund, with several thousand dellars that will be carried from the sale of horses, as there are a number of horses that are worn out that it will be to the interest of the city to sei."

No provision is made in the estimate for the proposed office of Fire Director.

THE PIEE DIRECTOR.

In speaking of the matter the Chief said that while he believed there was a necessity for a man in that position he did not believe that Councils would favor its creation this year, and besides there were other things that were more imperative, such as a fire and patrol boat for the rivers. If Councils was the fire boat a special appropriation would have to be made for that parpose. A lot for a fire engine house in the Thirty-fifth ward, to cost \$2.50, is another feature of the Fire Bursau estimate, the same being according to an ordinance already now for the purchase of similar lots in the Thirty-first and Thirty-second wards, but Mr. Brown thinks if Councils want them they must be appealably provided for in the appropriation. The special provided for the according to a provided for the provided f for the rivers. If Councils saw fit to recognize the necessity for the fire boat a special appro-priation would have to be made for that pur-

also the purchase of a patrol boxes and booths at a cost of \$225 each; \$4,600 is asked for, to keep up with the improvements in electrical appli-nces; the total salary list of this bureau is \$14.710.

\$14.710. No new features are embraced in the appro-priations asked for the Bureaus of Health, Build-ing Inspection, or Plumbing and Gas Fitting Inspection, The salaries of the Health Bureau amount to \$15.612 50, and the others \$4,740 and \$1.500 respectively.

Inspection. The salaries of the Health Bureau amount to \$18.012 50, and the others \$4,740 and \$1.000 respectively.

The statement shown in exhibit "B" is the amount of money necessary for the lighting of the various houses in the Bureaus of Police and Fire, as prepared by the Allegheny County Light Company and the Superintendent of the Bureau of Electricity. It includes the lights for houses already wired and lighting those not already provided. The total for the Police Bureau is \$4,007 20 and for the Fire Bureau \$7,056, making a total of \$11,413 20. As stated in the introductory letter to the Mayor, if the item of lighting is not included in the appropriation of the Department of Public Works, this sum will have to be added to the total of the Public Safety appropriation, making it that much larger.

The wonderfully effective treatment (so frequently referred to of late years in the "Microcosm"), discovered by Dr. A. Wilford Hall, is now offered to suffering humanity in the shape of a confidential health pamphlet, fully unfolding the treatment in a manner so clear as to be easily understood. One careful perusal of the Health Pamphlet will convince any reasonable person of the solid logic and sound reasoning of Dr. Hall, and the regular application of the treatment will conquer the most stubborn cases of piles, constipation, dyspepsia, loss

The doctor is a distinguished-looking gen-tleman of the old school. He wears a high a year, but while here yesterday called upor about 20 patients. While on a trip throughou the country his son, Homer L. Clark, teacher of physical diagnosis in the same college, takes the place of his father as Professor of Theory and Practice.

WHAT THE VISIT REVEALED. Dr. Clark was encountered in the corridor o the hotel last evening by a DISPATCH repre-sentative. When asked what he had been

sentative. When asked what he had been doing in Pittsburg he said:

"Just come up to my room, young man, and I will show you what I have been doing. I have visited about 20 patients to-day and prescribed for as many more, who are suffering from chronic diseases."

The interior of the doctor's room might be apily described as being en dishabille. Packages of medicine, coened and unopened, were scattered all about the room.

"To give you some idea of what a medical practice may amount to, I will show you this, said the doctor, as he opened a journal and exhibited the names and the number of persons to whom he had prescribed since the 27th of last March until December 23. The whole number aggregated 6,703, or an average of 15 per day, excepting, of course, the days on which he lectured.

"Now about this influenza which has spread over Europe, said the Doctor. It is not new by any means. We have it constantly in our midst, but at periods of every few years it goes like a whirlwind over the country. It is not dangerous by any means, except to the very young and the aged. It is carried from place to place by bacteria, and I do not doubt but that in a few weeks it will be

describes the symptoms of the influence as follows:

The onset is sudden, with a chill, followed by fever, the temperature reaching 181° to 186°, a quick compressible pulse, and severe shooting pains in the eyes, frontal sinuses, joints and muscles. The chill and fever is rapidly followed by chilliness along the spine, with pains in the throat, or hoarseness, deafness, corpras, sneeding, watery eyes, and a very irritating cough, sometimes becoming bronchial. The longue is furred, there is snorexis, epigastric distress, nausa, vomiting, and often distribus.

"The complications are often lobar or catarrhal pneumonia, which add to the gravity of the attack. The cough may outlast the disease several weeks.

We All Use the Banner.

There is no baking powder comparable to the old reliable "Banner" Baking Powder, which has been used in many of our very best families for nearly a quarter of a century. Amateur bakers, and even quite small children bake delightful cakes with it.

Take one quart rich cream, four tablespoonfuls powdered sugar, two teaspoonfuls
extract of vanilla; place this in a vessel
packed with chopped ice; allow it to
thoroughly chill, then beat (Dover egg
beater) into this two teaspoonfuls gelatine
that has been dissolved in two tablespoonfuls sweet milk. Prepare your cake as follows: Take the whites of eleven eggs, beaten
stiff, one and one-half teacups granulated
sugar, measured after sifting; beat the sugar
gradually, also the yelks of six eggs and one
teaspoonful extract of orange; stir into this
one teacupful flour, measured after sifting
four times, having mixed through the dry
flour one measure "Banner Baking Powder." Bake forty minutes, slow oven;
square pan. When the cake is cold cut out
the center and pour in the whipped cream;
drop over top candied cherries or other conserves.
